

31 January 1986

MEMORANDUM FOR THE RECORD

SUBJECT: Receipt of Telephone Call from Congressman
Frank Wolf's Office

1. On Friday, 31 January 1986, Ms. Nancy Bruce, Senior Aide to Congressman Frank Wolf (R. Va.) called to inquire about the following issues which were discussed at the 29 January 1986 Traffic Advisory Committee meeting.

- Is money available to fund the roadway changes to Virginia Routes 123 and 193, and if so, how much;
- If available, in what budget is the money contained; and
- How much money is available to fund the additional lane on I-495 northbound between Route 193 and the Parkway on-ramp? Is money available this year and if so in which budget and what amount?

2. The following responses are keyed to the questions above:

- With respect to the roadway improvements to Routes 123 and 193, I advised that Agency money was included in the New Building construction and construction related appropriations. We are estimating a total cost of these improvements to be in the range of \$2.5 million to \$3 million. This range is based on an estimate from the State of Virginia and their highway architect-engineer.
- With respect to the additional lane on I-495, I told her that I had not had an opportunity to research the question but would provide her with a response circa 6 February.

3. Ms. Bruce appeared to be satisfied with the responses provided above. The conversation drifted to Mr. Kent Maxfield and his demeanor at Traffic Advisory Committee meetings. After some 5 minutes of conversation she offered that Congressman Wolf would fully support the Agency because it was apparent to him that we were doing everything within reason to accommodate the concerns expressed by Mr. Maxfield.
